## Rabbit Anti-NF- $\kappa$ B P<sup>65</sup> Antibody

---

Catalog No.:	ADB-NF $\kappa$ B-01-50
Size:	50 $\mu$ g
Description:	This antibody was produced in a rabbit immunized with synthesized non-phosphopeptide human NF- $\kappa$ B p <sup>65</sup> . That antibody is specifically against endogenous total levels of NF- $\kappa$ B p <sup>65</sup> in western blot analysis.
Immunogen:	Synthesized non-phosphopeptide human NF- $\kappa$ B p <sup>65</sup> around the phosphorylation site of serine 276 ( Arg-Pro-Ser-Asp-Arg)
Host:	rabbit
Antibody Type:	The purified IgG from rabbit serum using an immunogen affinity chromatography.
Formulation:	50 $\mu$ l of PBS (150mM NaCl, pH 7.4, 0.02% sodium azide and 50% glycerol) in liquid form.
Specificity:	human, mouse and rat NF- $\kappa$ B p <sup>65</sup>
Applications:	Western blot: 1: 500~ 1000 dilution IHC: 1: 50 -100 dilution
Storage:	Store at 4 °C for 2-3 weeks. Store at -20 °C for one year.
